

Mastering Energy Consumption.

Talking LoRa™

Smartlog is the first company to talk LoRa with Air Handling Units. Our battery powered Plug&Play solutions help creating value with data. We visualize your sensor data on our interactive Smartlog DASHBOARD.

Notifications:

- ΔP (pressure difference)
- Flow
- Running hours
- Automatic end-of-life calculation
- EOP (Economic Optimum Point)

LoRaFilter

Smart delta P air management

Gain actionable sensor insight through continuous analyzing
